

April 13

To Whom It May Concern,

I am writing to ask that the U.S. Food & Drug Administration ban the practice of forced molting in laying hens.

7823 '99 APR 19 A8:45
This is not only inhumane, but it dramatically increases the risk of Salmonella enteritidis contamination.

Is the function of the U.S. Food & Drug Administration to increase corporate factory farm profits, or protect the health of the citizens of this country?

Thank you.

Sincerely,

Woody G. Lambert
